

## 2. Why should I hire you?

As I said earlier, as a fresher I have theoretical knowledge but if you give me a chance to enhance my practical knowledge then I will give you a better result in a short period of time if I get a chance I can surely build and work towards my skills and knowledge to prove myself and beneficial to the organization.

## 3. What are your strengths and weaknesses?

Strength: I am adaptive to any environment, and I am a person of positive attitude, hardworking, dedicated.

Weakness: I am a person, who over thinks before doing any task because I want to do everything perfectly.

(I am a little bit nervous while speaking in a group, but I have given many presentation to overcome this.)

## 4. Why do you want to work at our company?

Because I know this company will help me to enhance my skills and gain more knowledge in the industry. I am a fresh graduate and I am looking forward for an experience. An experience where I can improve myself better for the future. If you are going to give a chance to work with you I will do my best. My sincerity and loyalty will be the sigh of committing myself to this company.

## 5. What is the difference between confidence and over confidence?

Confidence when we feel sure about are actions and make the right decisions. We believe in our ability to do something and have faith in ourselves. On the other hand, overconfidence is excessive belief in our abilities, overlooking the fact that we can be wrong too.

Well I would like to explain this answer by an example .If I am saying “I can do that” this is my confidence. And if I say “ONLY I can do that” that is the part of my overconfidence.

## 6. What is the difference between hard work and smart work?

Hard work is definitely more important because it is only through hard work that we can achieve the goals of our life. Smart work, on the other hand, often leads to shortcuts and procrastination. To achieve anything in life, On hand to commit to continuous hard work, which will lead one to the summit of achievement.

## 7. How do you feel about working nights and weekends?

Yes sir, if a company needs my help to work nightshift and on weekend days I will. Because as a fresher, my aim is to gain knowledge and experience new things working extra hours/days is a good chance for me to learn and gain knowledge. So if a company needs my presence, I always help my "organization" .

## 8. Can you work under pressure?

Working under pressure will be a challenge but It will be an opportunity to gain experience to know about my abilities also, I can learn new things in such situation. I will work under pressure with more patience. Yes, I think, I can work under pressure.

## 9. Are you willing to relocate or travel?

Yes, of course, I can relocate to the company. Because work is more important for me and doesn't matter if I have relocate to deferent places, Even it would be good opportunity for me to learn their culture, ideas and I sure differently something which will help to explore my knowledge and skill better.

## 10. What are your goals?

My short term goal is to explore myself on the best platform of this field which is provided by your company. I want to make my best effort for the success of company and my long term goal is to keep my family happy by providing them all facilities and luxuries and to do work for society which is possible through our field.

## 11. What motivates you to do good job?

My parents struggled a lot in their life, but they never let me struggle for anything, which always motivates me to get a good job and make them proud and make their dreams come true.

## 12. What makes you angry?

By the way I don't get angry too often, because anger destroys man's everything, but for me anger motivates and provokes me for achieving goals, if someone demotivates me for every time and if the person presses me down the higher the leap I take to make myself strong for challenges.

## 13. Give me an example of your creativity?

I can't exactly recollect. Since I am hoping to become a software developer, I have to be creative at all times. Writing code not only requires technical expertise and logic but also

creativity to a great extent. Only then the solutions developed will be flexible and be accommodating”.

#### 14. How long would you expect to work for us if hired ?

Well sir I’m a fresh graduate and it was my dream to get into an organization. And would love to work with your company and achieve more and more to build my skills and knowledge, there is no question of quitting.

“As long as I am having a positive impact, I would love to work for the company over the term— it has the capacity to offer me a rich and fulfilling career”. As a fresher I would be very much obliged to work for the company for a long time.

#### 15. Are not you overqualified for this position?

“ I would refer to myself as fully qualified, not over qualifications to do the job. I believe my qualifications will enable me to reach the expected level of productivity for this job faster and with less training. I would never take a job I wasn’t fully committed to”.

#### 16. Describe your ideal company, location and job?

“I would describe the ideal job as a job that makes the most of my qualifications and abilities, and gives me a chance to constantly challenge myself. I look for a stable job with quality supervision and a positive work culture at a successful company that will encourage me to work at my best”.

Or

My dream company should be the one offering me with job responsibilities where I could use my qualifications, strengths , capabilities and skills. I would be able to offer my best to help the company achieve greater business goals and profitability, while I also set landmarks along my career path.

#### 17. What are your career options right now?

As of now my career option is to get placed in a reputed company like yours, where I would enrich my professional skills and contribute myself for the growth of the company.

#### 18. Explain how would be an asset to this organization?

I believe my positive attitude towards learning new things and my ability to quickly adapt to changes is something which will be an asset to this organization.

#### 19. What are your outside interests?

Well my outside interests are going for outside exploring new places & people. Listening good music and spending time with my family.

## 20. Would you lie for the company?

I would not lie instead I would choose for a alternate solution like solving the problem by analyzing from the roots because “a lie may have short life but its result has very long life span” which ruins the organization’s reputations.

## 21. Who has inspired you in your life and why?

I am inspired by lot of persons in my life and also my failures inspired me a lot. Because it shows the pain of failures and also importance of success.

And I inspired by my father, from my childhood onwards I saw his hard work everyday. He always thinking about his family need and requirements. He always encouraging, support and tells me what is wrong and what is right. He have faced lot of problems in his life even he never loses his confidence. My thinking also I want to do same.

## 22. What was the toughest decision you ever had to make?

“Choosing Engineering over medical science after 12<sup>th</sup> was my toughest personal decision. But think I have made the right choice”.

## 23. Have you considered starting your own business?

No, I don’t have plans to start my own business. I am more focus to build my career with your company which I believe this company could give me a stable job have fun while I am working.

## 24. How do you define success and how do you measure up to your own definition?

I define success by my ability to reach the goals that are set out for me. On a personal level the things I wish to achieve in my life. On a work level, the targets that are set out for me as well as the professional development that I seek.

## 25. If you won \$10 million lottery, would you still work?

If I really got. I will get but in bank, Because I’m fresher so I do not have enough knowledge to maintain, So how I will concentrate in work to gain knowledge and develop my knowledge skills. Money may comes and goes, but knowledge is power. If bad days comes I will definitely bounce back with my knowledge.

Gaining knowledge is more important than money, I believe that always hard work pays I don't depend on the lottery. Thank you sir .

**26. Tell me something about your company how much salary do you expect?**

As I am a fresher, I don't have any idea on how much is the effort going to be spent and how much is the payment given for effort. So I just have an idea as it is mentioned in your placement offer details as 4.5 LPA . I even expect the same.

**27. Where do you see yourself five years from now?**

**28. On a scale of one to ten, rate me as an interviewer.**

I would like to rate myself a 7 to 8 because I know that I am not perfect and there is always scope for learning and improvement. Also I feel that continuous learning is fundamental growth.

**29. Do you have any question for me?**

What are your concerns about my candidacy and if I were hired for this role, what would you want me to achieve in my first two months?

**30. what makes you unique ?**

I have the unique skill to give very good advice, as I handle situations calmly and with a level head. My friends and family often turn to me for guidance, and I recently helped a colleague get out of an awkward situation with an unhappy customer at work. I have the ability to look at things from a different perspective, applying logic and reason to solve problems, and I think I could be a real asset to your business.

**31. How do you compare your performance with others?**

I feel better than others in some areas and in few areas I have to learn from others.... Overall, I am good with my performance and can take a difference with other workers.

**32. How do you handle failure.**

Whenever I fail something I feel sad only for some time I don't stay on it, I don't spend my energy on that , I always try to find out, whether things went wrong, because if I don't do that I will not be able to know how to get success next time.
